RE: Permanent Closure of Underground Storage Tanks at Brea AG
Service, Facility ID # 4-260063
Yakama Indian Reservation, Washington

Dear Mr. Grussing:

The U.S. Environmental Protection Agency (EPA) received your Completion of Underground Storage Tank Removal/Closure form for the tanks at the Brea AG Service located at 310 1/2 Washington Avenue, Toppenish, Washington.

Based on the information submitted, EPA has determined that closure of your tanks appears to conform to the permanent closure requirements stated in 40 C.F.R. §§ 280.71 and 280.72, and that existing soil and water appear to meet the Washington State cleanup levels for required petroleum releases. We are therefore closing the files for these tanks. In the event additional information becomes available, in the future, indication the site may pose a hazard to human health or the environment, EPA may require additional cleanup activity.

If you need additional information regarding this issue, please call me at (206) 553-2580.

Sincerely,

Katherine M. Holt
